**HEALTH PAYMENT SYSTEMS ANNOUNCES
IMPROVEMENTS TO HPS ONLINE ACCESS**

User-focused research leads to enhancements in customer online access point, improving consumer-centric solution for healthcare billing confusion

MILWAUKEE (Feb. 23, 2017) – Health Payment Systems (HPS), the only company that consolidates a consumer's healthcare bill and explanation of benefits claim information into one statement, has launched a redesign of its HPS Online Access portal. The enhancements are based on direct customer feedback that resulted from of user-focused research to ensure an easy, welcoming and intuitive digital experience that aligns with the company's mission – ending healthcare billing confusion. HPS is focused on that mission and proactively works on improving its offering as digital, billing and information consumption habits continue to evolve.

The company's solution to healthcare billing confusion improves the patient experience through patented technology that consolidates a healthcare consumer's medical bills and explanation of benefits into a single monthly statement. As a result, consumers receive one statement, can make one monthly payment and have one place to call, even when multiple specialists, physicians, health care systems or other health insurance providers are involved.

Customers of HPS are now able to use an improved HPS Online Access portal to manage and pay their healthcare expenses online. HPS streamlined the account registration process for new users, and unveiled a new look and feel, which increases the visibility of key features and improves the overall customer experience.

HPS's technology provides a solution that gives health systems, Accountable Care Organizations and more an array of benefits. Ultimately, the consumers of healthcare services – their customers – get a better experience from a simplified billing process.

About Health Payment Systems

Health Payment Systems is a privately held healthcare technology and services organization offering solutions to enhance the consumer healthcare billing and payments experience, while driving value to healthcare providers, health insurance companies and employers. Its patented solutions enable one statement, one payment and one place to call, making HPS the clear solution to healthcare confusion. To date, the company has processed over \$1 billion in claims. In 2016, HPS received honorable mention as a "Transformational Approach" with its healthcare billing solution in the U.S. Department of Health & Human Services national challenge at the Health 2.0 Conference. It is headquartered in Milwaukee.
